24 th	The Cottage	The Fairstead

Cley Harbour is a local community project which acts to improve and maintain Cley harbour to the benefit of the parish, it's economy and boat users, whilst always having concern for our place in a special natural environment.

Having restored the quay and seen it become a thriving part of the village our current ambition is to ensure this part of the River Glaven remains accessible. This will involve de-silting the channel around the quay to maintain safe moorings and below the flood gate to repair eroding banks.

We also aim to create a canoe rack and steps to make access to the channel easier and safer for rowers and paddlers.

#### CLEY ADVENTS WINDOWS

*If you are doing the "Advent Windows Trail". Please respect the privacy of householders.*
